This report is governed by, and incorporates by reference, the Conditions of Testing as posted at the date of issuance of this report at <http://www.cps.bureauveritas.com> and is intended for your exclusive use. Any copying or replication of this report to or for any other person or entity, or use of our name or trademark, is permitted only with our prior written permission. This report sets forth our findings solely with respect to the test samples identified herein. The results set forth in this report are not indicative or representative of the quality or characteristics of the lot from which a test sample was taken or any similar or identical product unless specifically and expressly noted. Our report includes all of the tests requested by you and the results thereof based upon the information that you provided to us. You have 60 days from date of issuance of this report to notify us of any material error or omission caused by our negligence; provided, however, that such notice shall be in writing and shall specifically address the issue you wish to raise. A failure to raise such issue within the prescribed time shall constitute your unqualified acceptance of the completeness of this report, the tests conducted and the correctness of the report contents.

TEST RESULT

Di-iso-nonyl Phthalate (DINP) Content in Universal Serial Bus (USB) Cords and Extension Cords, Keyboards and Folios - California Proposition 65

Test Method : Solvent extraction and analysis by Gas Chromatograph Mass Spectrometer (GC-MS) or Liquid Chromatograph Mass Spectrometer (LC-MS).

Maximum Allowable Limit:	0.1 %
---------------------------------	--------------

Test Item(s)	Item / Component Description(s)	Location(s)	Style(s)
1001	Plastic body of USB + plastic insulation of cable	-	-

Test Item(s)	Result	Unit	Conclusion
1001	ND	%	PASS

Note / Key :

ND = Not detected

% = percent

Detection Limit (%): 0.005

">" = Greater than

1 % = 10000 mg/kg

mg/kg = milligram(s) per kilogram

Remark :

- Accessible plastic substrate(s) [Including natural and synthetic rubber] and surface coating(s) of USB cords and extension cords with USB ports instead of electrical ports and those that are sold separately which are accessories for tablets, keyboards that are wireless and those that come in a tablet case and folios include tablet cases and other similar cases are applicable to be tested.
- Product(s) with DINP content exceeding this maximum allowable limit has (have) to comply with the labeling and warning statement utilization requirement.
