Certificate Issued to TARAX TECHNOLOG FIRST FLOOR OFFICE 2 10 PANMURE STREE DUNDEE DD1 2BW Order Number:	: Y LIMITED T		Date R	eceived: 30 A	pril 2013	
Description:	PROFESSIONAL DIGI	TAL LEVEL				
Manufacturer:	DIGI-PAS		Model	Number:	DWL680PRO	
Serial Number:			Custo	mer I.D.:	N/M	
Range 90		Unit: °	Resolu	ution	0.05	
Basis of Test:	MANUFACTURERS SF	PECIFICATION		Procedu	Ire: LPM 4 - 17	
Calibration Date:	03 May 2013	Temperature	20 ±1 ° C	Issue:	1	
		Relative Humidity	< 50 % rh	Modified	1: 19 December 2011	

Method:

This instrument was allowed to stabilise in a controlled environment for a period of time exceeding 24 hours.

It was then calibrated by comparison to angle gauge blocks using a sine table.

The instrument readings were allowed to stabilise before readings were taken.

The instrument was setup using the user calibration procedure prior to recording any results.

The uncertainties shown relate only to the measured values during the calibration & do not carry any implication as to the long term stability of the instrument.

Calibration Notes

Supplement to certificate number 56199 dated 3/5/2013

The reported expanded uncertainty is based on a standard uncertainty multiplied by a coverage factor k=2, providing a level of confidence of approximately 95%. The uncertainty evaluation has been carried out in accordance with UKAS requirements.

This certificate is issued in accordance with the laboratory accreditation requirements of the United Kingdom Accreditation Service. It provides traceability of measurement to the SI system of units and/or to the units of measurement realised at the National Physical Laboratory or other recognised national metrology institutes. This certificate may not be reproduced other than in full, except with the prior written approval of the issuing laboratory.
